

Engineer (Test Department)

Advertisement (April 2022)

This is a rare opportunity to join our electronics manufacturing team at Windsor. NOTE Windsor, part of the NOTE Group, continues to be a friendly and professional place of work. We work differently to many other Contract Electronics Manufacturing companies. We limit the number of customers, the type of customers and focus on Jit/Kanban supply systems. This helps us build strong long-term working relationships which leads to mutual success. This is highlighted in our Ethos:-

Underpinning our vision, strategy and values, is our business ethos.

Customers sit at the heart of our business. Our people and the people we engage with are the pulse which forges a sustainable, successful and reputable organisation.

Working in harmony with stakeholders and our environment, we are committed to continuous improvement. All of which ensures we are **the Customers' obvious manufacturing partner**.

Our mantra is: **PCB** - Perfect quality, **C**ustomer focused, **B**rilliant delivery

If you live local to Windsor, have experience in Test Engineering and want to work with nice people, this might be your perfect opportunity.
