Reporting to:	SMD Supervisor / Test Supervisor
Remuneration:	£23K to £27K per annum <small>*Rate dependent on Rework proficiency</small>
Normal Working hours:	37hrs / week Mon – Thu 07:30 -16.00 (half hour lunch) Fri – 07:30-12:30 (no lunch) <small>*SMD times shown (Test rework start & finish 15 minutes later)</small>
<ul style="list-style-type: none">• Holiday• Pension Scheme• Parking	5 weeks + bank holidays + long service extra days Auto Enrollment (5%+3% contributions) Free parking on site

Job Role:

Reporting to the department Supervisor you will be required to support production with SMT rework, modifications, hand builds and any other repairs. This includes using re-work equipment, X-Ray & inspection equipment, and soldering irons for fine pitched components.

Our rework requirements range from SMT rework to complex BGA replacement & track repairs. We will match you to the rate / department depending on your rework proficiency.

Occasionally as a Technician you may be required to work in other areas soldering or assembling production units as needed.

Responsibilities:

- Competent soldering skills – down to 0201 surface mount component size
- Proven experience in SMT rework
- Proven experience in conventional Through Hole rework
- Read and interpret Drawings, Diagrams and Bills of Materials
- Maintain high housekeeping standards
- BGA rework, Track repairs, & Modifications will be a distinct advantage
